PET CARE PLANS

Your Pet Is Your Best Friend for Life. Make that Life a Long and Healthy One.

As a pet parent, you want the very best for your beloved friend. That contented purr or that wagging tail means the world to you, because you know your pet is happy. You also know that your pet's happiness depends upon good health, but you might also worry about the high cost of regular veterinary care. We created the Suwanee Animal Hospital Pet Care Plan just for you, so you can have the peace of mind that comes from top-quality care, and at a fraction of the cost of regular services. With comprehensive preventive care, our Pet Care Plans help you protect your pet's precious health, so you and your best friend can have many happy years together.

More Value than Insurance

You may wonder why a Pet Care Plan is a better choice than insurance for your pet. The answer is simple: our plan not only saves you more on preventive care—the biggest investment for most pet parents—but you also don't have to worry about paying the cost of care upfront and waiting for reimbursement. Instead, you pay the same low price each month to receive the comprehensive care included in your plan. Plus, our Pet Care Plans include services that may not be covered by veterinary insurance, including free office visits and important regular screenings. Insurance premiums are based on your pet's age and any existing health conditions. These premiums are very high in many cases. With a Suwanee Animal Hospital Pet Care Plan, you know what your monthly payment will be, and your pet will always receive the same level of care, regardless of any pre-existing conditions he or she may have.

Quality Care and Compassionate Service

For more than 25 years, Suwanee Animal Hospital has been committed to providing you with the highest level of veterinary care, in a loving, supportive environment. Our veterinarians and staff understand how much your pet means to you, and we work hard to make sure both you and your friend receive top-notch treatment and service. Being a pet parent can be stressful at times, and we are always happy to answer your questions and address your concerns. We want you to be a part of our family for many years to come. In addition to veterinary and surgical care, Suwanee Animal Hospital offers extra services that can help make your life easier, such as grooming and boarding.

To learn more, please visit www.suwaneeanimalhospital.com or call us at 770-271-8716. We look forward to meeting you and your pet!

Multiple Benefits for You and Your Pet

A Pet Care Plan doesn't just save you money on Suwanee Animal Hospital's expert veterinary care. You and your pet will enjoy:

- **Complete Care** Pet Care Plans offer screenings and services that go beyond a basic annual checkup. You, your pet, and even your veterinarian will benefit from thorough care that can help catch health problems before they start.
- **Easy Enrollment** We know your pet is a valued member of your family, and you are a valued member of ours. That's why we've made the enrollment process simple, and we're glad to help you choose a plan, explain the details, and answer any questions you might have.
- **Discounts on Additional Services** Even healthy pets can get sick sometimes, and treating an unexpected illness shouldn't cost a fortune. Pet Care Plan members receive discounts on other veterinary services.

Preventive Care for Every Stage of Life

Suwanee Animal Hospital's Pet Care Plans are specially designed to meet your pet's needs from the earliest years through adulthood. Each plan includes important services such as exams, vaccinations and screenings, with additional options for extra care. Pet Care Plans save you time and money, with benefits like:

- Free office visits
- Up to 10% off of veterinary services
- Free drop-off service beginning at 6:30 am, with pick-up that same day as late as 8 pm Mon-Thurs, 6 pm Friday and (Saturday from 8:00 am to 4:00 pm)

Your veterinarian will help you find the plan that is right for you and your pet. Call us today at 770-271-8716.

Spaying and Neutering: The Right Choice

Why should you spay or neuter your pet? The most important reason is to prevent breast cancer and uterine and prostate infections that occur as your pet gets older. It also prevents inconvenient heat cycles and pregnancies. According to The Humane Society, shelters euthanize more than three million dogs and cats each year—deaths that could be prevented by spaying and neutering.

Spaying and neutering also prevents problems such as aggression and territory marking (urinating on furniture), making both you and your pet happier. This simple, safe procedure is offered in the Plus option of our Puppy and Kitten Pet Care Plans.

Clean Teeth = Good Health

Did you know that good dental care is every bit as important for your pet's health as it is for your own? Periodontal disease can lead to much more than just bad breath—it can be fatal if left untreated. Regular cleanings (and proper care from you) can prevent dangerous bacteria from entering your pet's bloodstream and causing a host of diseases.

With a Pet Care Plan from Suwanee Animal Hospital, your pet will receive a thorough dental examination, and if a cleaning is needed, you can purchase a Pet Care Plan that includes a dental cleaning (prophylaxis). Your veterinarian will show you how to care for your pet's teeth between cleanings, and we even offer special treats and chews to reduce tartar build-up. To learn more about dental care, and the other benefits of our Pet Care Plans, call us today at 770-271-8716.

What If I move?

Pet Care Plans are an annual commitment. However, you may cancel at any time before the end of the year, by simply paying the retail cost of services received to date, or the remaining plan installments — whichever is less. Contact Us Today!

Contact Us Today!

Enrollment is easy! Simply sign your plan agreement, and pay the enrollment fee and first month's installment, and your coverage begins immediately. If you'd like to enroll your pet in one of Suwanee Animal Hospital's comprehensive Pet Care Plans, or need more information or assistance, please call us at 770-271-8716.

Pet Care Plans for Your Dog

Big dogs, small dogs, frisbee-chasers, lap dogs—all dogs are at their best when they're happy and healthy. Suwanee Animal Hospital knows that your dog is your loyal, lifelong friend, and we designed our plans to help you reward your pet with the gift of good health.

Puppy Plans

Your new puppy brings joy, love and laughter into your home. As he grows, learns and plays, he needs plenty of love and care from you. One of the best things you can do for your little friend is to protect his health now, so he can become the strong, active dog he is meant to be. Our Pet Care Plans are designed for the needs of puppies six months old or younger, so you can give him a bright future without the usual high costs of early care.

Plan Types:	Basic	Plus

Additional Discount on Any of Our Other Veterinary Services	10%	10%

* Spaying or neutering your puppy is recommended within the first six months of age. Older pets, large breeds, and pets with other special conditions may require additional surgical fees. Suwanee Animal Hospital will perform pre-surgical blood testing to screen for any health conditions that will necessitate a postponement of the surgery. If such a condition is found, you will be responsible for the cost of this blood test. Pre-surgical blood testing included with your Pet Care Plan will be conducted on the day of the surgery, and is specific to the spaying or neutering procedure. Please consult your veterinarian with any questions regarding your plan.
